RUBBERCOMP® is a multi-purpose, air drying specialty rubber coating. It can be easily applied by spraying. It protects coated items against moisture, acids, abrasion, corrosion, and skidding /slipping, and provides a comfortable, controlled grip.

RUBBERcomp® remains flexible and stretchy over time, and will not crack or become brittle in extreme weather conditions. It has been tested and proven in temperatures from -30°C to +90°C. Easy to peel off. Around four paint layers needed for adequate film thickness.
